

Position Title: Pacesetter on Demand Consultant

Position Location: Calgary, Alberta

Reports to: MWD Field Supervisor/Coordinator

Position Overview

As a Pacesetter on Demand (POD) Consultant you will be responsible for the functionality and execution of Pacesetter's on Demand drilling service center. This includes daily reporting, survey management, on-demand analysis, and constant communication with the operations team as well as the customer.

Responsibilities

- Review performance reports on a daily basis to identify opportunities for improved performance and alert operations team when warranted
- Record and share real time well, drilling and survey data
- Performance Summaries / Data Plotting / Torque and Drag Analysis / Interval Analysis / Equipment failure tracking & reporting
- Organize and complete EOW reports
- Generate hard and electronic copies of gamma logs
- Identify opportunities for efficiency improvements
- Validation of pre-run programming files, and post run memory files
- Generate post-run PTK / DynamX reports
- 1st level troubleshooting dealing with MWD / programming / software issues

Education, Experience, Technical Qualifications

- 3-5 years of relevant mud pulse or EM experience
- Technical Degree or Diploma in a drilling related field would be an asset
- WellCAD, Compass, WellPlan, prior drilling engineering or directional drilling experience
- Strong Microsoft Office skills
- Ability to quickly acquire knowledge and skill with differing types of software

Candidate Profile

- Must be eligible to work in Calgary, Canada (no relocations)
- Requires a flexible schedule to accommodate a rotating shift
- Ability to deal with and contain confidential information
- Ability to manage multiple priorities
- Superior detail orientation; value accuracy and have high standards around quality of work
- Process thinker, with high degree of initiative and ability to work independently
- Ability to work in a fast-paced environment
- Exceptional time management skills
